

AVIATION COMPANY ELERON

Air Cargo Transportation

This is the great honor for us to present you air company ELERON (hereinafter referred to as the air company), which provides services in air cargo and mail transportation.

With the wide range of products and services specially adapted to the different requirements of our customers, we can provide a high level of safety and service, while continuing to offer cost-effective solutions for the cargo freight.

Our company guarantees the safety, reliability and timely delivery of goods in CIS regions, ME, EU and Asia.

Main idea and model of our company is to built up the biggest cargo hub of East Europe and Asia in Ukraine.

To realize our aim we see three main hubs Lviv, Kyiv and Odessa.

Following steps are in progress:

- we create internal market of cargo transportation in Ukraine first time in history of cargo aviation of Ukraine.
- we are connecting all big cities with our hubs (Lviv, Kyiv and Odessa);
- we have connected Ukraine with EU with regular cargo flights to FRA, RIX, LGG, etc.;
- we are the first Ukraine cargo air company who signed international partnership (SPA) agreement with worldwide airline such as AirBaltic, Lufthansa, CAL, TAP, etc.

Eleron – company you can trust in!
